

Rumble and Rattle

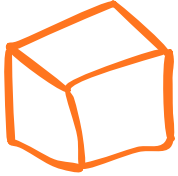

By Albrecht Fersch

April 18 – May 24, 2026

Gallery Hours: Thurs + Fri: 4-6pm, Sat + Sun: 2-6pm

What if your house was a musical instrument?
What would your life sound like? Would it be a
rock anthem? A blues song? A lullaby? A jazz
riff? Or a mix of it all?

The Artwork

In *Rumble and Rattle*, Albrecht Fersch invites you to go inside the instrument. He has transformed Open Source Gallery into a musical contraption, and you are invited to play it!

Materials

The instruments are made from everyday objects like pots, canisters, wood, boxes, bells, fabrics, porcelain, pipes, and more...but at the Open Source Gallery they've become members of a band. What other materials do you think would make interesting sounds? Bring them when you visit and add them into the art work!

Make Some Noise!

Albrecht Fersch is curious about the ways sound can communicate ideas, without words. What kinds of stories can you tell with these musical contraptions?

The Artist

Albrecht Fersch comes from Berlin, Germany. He believes that art is a release valve for the unfamiliar and, at the same time, a mirror of everyday life. Why is art important to you?
